TC/A U. 3711 Docket No.: B03-25  
Reply to Office Action of December 15, 2005

### **AMENDMENT TO THE SPECIFICATION**

Please replace the paragraph beginning at page 8, line 4, starting from "A olded golf ball . . .," with the following amended paragraph:

- - A ~~[[olded]]~~ molded golf ball 40 (which may include a core, core layers, and/or intermediate layers, and at least one cover layer), having a novel parting line configuration is described on FIGS. 7-12, with the location of the traditional equator indicated by 41. The novel parting line configuration can be described as the superposition of a base waveform  $\lambda_1$  with a secondary waveform  $\lambda_2$  (or waveforms having wavelengths that are substantially shorter than the base waveform). - -
